MESSAGE FROM THE FOUNDER

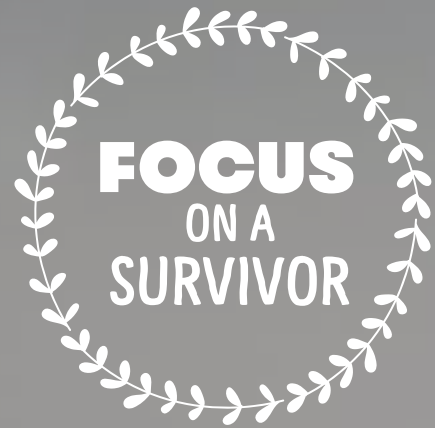

We successfully concluded the WARIF Educational School Program with a specific curriculum designed and introduced into selected secondary school addressing the prevalence and prevention of sexual violence and rape among adolescent school children. This had an immediate significant impact, underscoring the importance and need for preventive initiatives to be made available in addressing the issue of gender based violence among all age groups .

We intend to expand this program over the next 3 years to include all secondary schools across the nation. Join us as we impact positively on the lives of these youths who are our leaders of tomorrow.

We wish all our partners, sponsors and friends of WARIF a merry christmas and a wonderful start to the new year!

PROGRESS REPORT

WESP INITIATIVE

THE WESP Initiative was successfully concluded in this quarter with the implementation of the WARIF Curriculum in selected schools to reduce the prevalence and educate on the prevention of gender based violence amongst secondary school children. The curriculum was extended to parents as well as the children from these selected schools and had an immediate positive measured impact on both target populations.

NTA NEWSLINE

Our Social Advocacy continued with our Founder Dr Kemi DaSilva-Ibru featured on NTA Newsline speaking about the need for parents to be more aware and pay closer attention to the signs of child abuse that may be evident in their children.

She shared three important points parents should be cognizant of

1. Listen and Believe the child when they describe situations involving sexual abuse that has occurred with them
2. Report the act because it is a crime against the child
3. Come to organizations like WARIF for the counselling and treatment of survivors.
